Subject: Why don't you just leave Microsoft alone. These attorney generals should

Why don't you just leave Microsoft alone. These attorney generals should concentrate on the problems of their own states. Chasing deep pockets so they can spend additional money on state pork projects (RE: Cigarette settlement) is a load of crap. The American consumer is bright enough to make their own decisions. The public would be better served if these guys would go after clowns like ENRON. Must be all of the graft is gone at that point.
